Fairfield County P.A.R.T. Coalition

•**Assessment Results:** What domains represent your local consortium's key strengths, weaknesses, opportunities, & threats?

Strengths	Weaknesses
Environmental Support	Program Evaluation
Opportunities	Threats
Program Adaptation	Communication

Fairfield County P.A.R.T. Coalition

Growth: Compared to last year, where has your local consortium's sustainability grown and why?

Prioritized Domain: What domain weakness/threat did you prioritize to address and why?

Compared to the Sustainability Report from 2021 most of our domains have decreased. Our Sustainability Score for 2024 is 4.7 compared to 5.3 in 2021. The only domain that increased was Funding Stability.

Why? It is difficult to know why our stability score has not increased. One guess would be a different group of people completed the PSAT and they have a new and different perspective of the coalition.

As a group we prioritized Communication as the domain weakness to address.

The Team felt communication with the public can be difficult. Parts of the community are not aware of the Coalition and its efforts. A trend seen is the public is unaware until they have a personal situation with Substance Use Disorder.

Fairfield County P.A.R.T. Coalition

What goal(s) are you working on in order to address this weakness/threat?

How do you plan to track progress on your goals over the next fiscal year? How will you keep sustainability a priority for your Consortium over the year?

The goal is to have a **Communication Strategy Plan** in place to increase the community's awareness and support of the Coalition. The completed plan will be shared with the Coalition members.

The Coalition will track progress on goal by setting timeline dates to create and implement a **Communication Strategy Plan**. As part of the plan, we will track attendance at meetings, community outreach events, and social media posts.
